

Cleantech Day in Helsinki

Cleantech Venture Day is the first and the biggest cleantech investment event in the Nordics. It's organized on June 3–4 in Helsinki, Finland, in connection with the World Circular Economy Forum. Hundreds of investors are connected with the leading Nordic cleantech companies and so far more than 250 companies have both pitched and received over 600 MEUR worth investments after the event.

At the Cleantech Day in Helsinki, leading cleantech startups, investors, corporates and other key-enablers are attending to make valuable connections happen. This is the place to be if cleantech is your business.
